How to Install the Product

**Wild Boar Walkway**
Install the product on a separate support (such as a tree branch) around the existing wild boar entrance passage.

**Edge of Crops**
Install the product at intervals of 2 m around the edge of the crops where wild boars are expected to approach.
(We recommend installing a separate support or fence)

Field-test

Pocheon Pear Farm

"Our area has been repeatedly damaged by wild boars every year. But after installing Sairen, I am very happy to report that we have had no damage to our crops!". Field tests from Pocheon Pear Farm prove the effect of the repellent!

Product Description

**Major Targets**
Harmful wild animals such as wild boar, elk, and roe deer

**Main Ingredients**
Natural herbal extracts

**Principle of Application**
Blocks access by stimulating olfactory disturbances in wild animals

**Packaging Unit**
10 pcs / 1 bag
